

## App.js

```
import './App.css';
import tataImage from './components/tata.jpg';

function App() {
  return (
    <div className="App">
      <h1>Tata Sierra User Reviews</h1>
      <p>
        Here are some user reviews for the Tata Sierra:
        <a href="https://www.cardekho.com/user-reviews/tata-sierra">User Reviews</a>
      </p>
      <div className="car-info">
        <img src={tataImage} alt="Tata Sierra" width="500px"/>
        <div className="car-description">
          <h2>Tata Sierra</h2>
          <p>
            The Tata Sierra is a compact SUV produced by Tata Motors. It has a distinctive boxy
            design
            and offers a comfortable ride for both city and off-road driving. With its spacious interior
            and robust build quality, the Sierra is a popular choice among SUV enthusiasts.
          </p>
        </div>
      </div>
    </div>
  );
}
